Boost compliance with broad, multi-specialty surgical expertise.

We offer coding–only, coding audit, and coding education solutions through a highly specialized, credentialed, and recognized team of surgical coders.

What sets nimble coding apart.

Enhanced Reporting

Track, review, and query the status of all cases with our interactive dashboard.

Improved Turnaround

Accelerate your revenue cycle. nimble transcribed reports are coded within 2 hours.

Boost Accuracy

Ensure industry–leading accuracy with specialized, certified coders and extensive QA.

Increased Security

Protect patient privacy with our HIPAA–compliant document management portal.

Specialized Management Tool

nimble's interactive dashboard is the most efficient system for managing all of your coding.

- Instant overview of all pending cases, cases coded, cases awaiting additional information and cases in the query process.
- Using the query process, you can post questions directly to our coders and review their responses on specific cases.
- Securely upload all corresponding information such as pathology reports, implant logs, etc.
- Instant access to the coding for all cases.

"nimble's coding platform makes the billing process so much easier. It's intuitive, user-friendly, and doesn't require five steps when three could do the trick."
