EXPERTISE ACROSS ELECTRONIC HEALTH RECORD SYSTEMS

Tailor your Epic EHR for ASC billing and coding

nimble leverages its proprietary processes and ASC RCM expertise to enhance Epic's standard logic and workflow and drive leading results for surgical organizations using the Epic platform.

From the outset, nimble works to correct logic breaks, improve delays in billing and follow-up, and resolve unnecessary insurance denials.

All of which lead to:

✓ **An increase in clean claim rates**

✓ **An increase in revenue**

✓ **An increase in cash**

✓ **Lowered AR days**

✓ **A steadfast revenue cycle process**

> "I wanted to pause and thank nimble for an outstanding partnership this past year. It's evident your team is extremely focused on delivering excellence and has strong competency in ASC billing."
> **VP of Finance, Health System**

Other benefits you can expect with nimble billing in your Epic EHR:

1. A customized Epic platform based off of your needs

2. Expert interpretation of Epic's improved data analytics and reports

3. Reduced cost of in-house revenue cycle expenses

4. Reduced cost of keeping up with regulatory requirements and compliance

5. Efficient work queue options to monitor your revenue cycle

6. Effective workflow process (e.g., remittance tracking)

7. Ability to follow-up and monitor claims, including denial management

8. Ability to monitor touches, "weigh" work efforts from your in-house team, and monitor our team's progress

9. Ability to tie patient accounts together (through guarantor enterprise) for best self-pay practices

10. Ability to purchase real time eligibility and claim status through Epic
